

# Eastham Ponds Profile

A RESOURCE OF THE CAPE COD FRESHWATER INITIATIVE

Water quality is critical to the vitality of the region's pond ecosystems and coastal embayments. Yet pollutants found in stormwater runoff, and in groundwater by which ponds are recharged, threaten the region's freshwater quality. Understanding the broad issues that impact Cape Cod's freshwater ponds, characteristics of the region's ponds, and actions at the local level all help set a baseline for understanding and action.

## Pond Monitoring

Of the town's 23 ponds, 9 have three consecutive years of recent monitoring data and only 52% of all the ponds have available monitoring data. The data record for this monitoring spans 19 years with an average of 0.6 sampling events at each monitored pond per year.

(2016-2021)

## Water Quality Impairments

A lack of consistent and available monitoring data for all ponds means that we may be underestimating threats to waterbody health.

## Top 5 Largest Ponds

POND	AREA
1. Great Pond	113.4 acres
2. Herring Pond	45.7 acres
3. Depot Pond	28.8 acres
4. Ministers Pond	22.4 acres
5. Muddy Pond	10.2 acres

## Top 5 Deepest Ponds

POND	DEPTH
1. Great Pond	36 ft.
2. Herring Pond	35 ft.
3. Depot Pond	31 ft.
4. Bridge Pond	20 ft.
5. Ministers Pond	16 ft.

# Eastham Ponds Profile

A RESOURCE OF THE CAPE COD FRESHWATER INITIATIVE

## Pond Watersheds

The land area that contributes to freshwater ponds and lakes is referred to as a pond watershed. Relatively few pond watersheds have been delineated across the Cape. Land area within pond watersheds is much larger than the water bodies themselves. In Eastham, **9%** of the town's total land area is within a delineated pond watershed.

**7**   
Pond Watersheds

Area

Some contributing pond watershed areas also extend beyond town boundaries and include additional acreage in neighboring towns.

## Land Use in Pond Buffer Area

Understanding the way that land is used around our freshwater ponds contributes to a better understanding of potential pond impacts, stressors, and viable strategies to protect or restore pond health. **458** acres (or **5%**) of the town's total land area is within 300 feet of a freshwater pond.

## Documented Town Reports and Actions

Freshwater Reports

**8** 

Pond Specific  
Freshwater Reports

## Local Pond Organizations

Independent groups, organizing around a single or multiple ponds, voluntarily conduct educational and advocacy efforts and collect water quality monitoring data, which is not always available or sufficient for regional analysis.

There are **0** local pond organizations in the regional dataset.

## Pond Strategies Implemented

Updates and additional projects will be added as information becomes available. Review project details at: [cocom.link/pond-restoration-projects](https://cocommission.org/pond-restoration-projects)

-  Schoolhouse Ministers Pond, Vegetation Hydroraking
-  Schoolhouse Ministers Pond, Aeration
-  Schoolhouse Ministers Pond, Stormwater Management
-  Herring Pond, Alum Treatment
-  Great Pond, Alum Treatment
