Sandwich Ponds Profile

A RESOURCE OF THE CAPE COD FRESHWATER INITIATIVE

Water quality is critical to the vitality of the region's pond ecosystems and coastal embayments. Yet pollutants found in stormwater runoff, and in groundwater by which ponds are recharged, threaten the region's freshwater quality. Understanding the broad issues that impact Cape Cod's freshwater ponds, characteristics of the region's ponds, and actions at the local level all help set a baseline for understanding and action.

Top 5 Largest Ponds

| POND | AREA |
|------------------------|-------------|
| 1. Mashpee-Wakeby Pond | 735.9 acres |
| 2. Lawrence Pond | 138.6 acres |
| 3. Peters Pond | 135.0 acres |
| 4. Spectacle Pond | 106.2 acres |
| 5. Snake Pond | 87.5 acres |

Top 5 Deepest Ponds

| POND | DEPTH |
|-------------------|--------|
| 1. Peters Pond | 57 ft. |
| 2. Spectacle Pond | 43 ft. |
| 3. Hoxies Pond | 37 ft. |
| 4. Snake Pond | 33 ft. |
| 5. Triangle Pond | 30 ft. |

Pond Monitoring

Of the town's 55 ponds, 0 have three consecutive years of recent monitoring data and only 11% of all the ponds have available monitoring data. The data record for this monitoring spans 11 years with an average of 0.6 sampling events at each monitored pond per year.

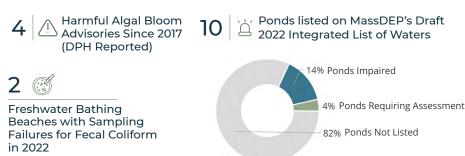

6 Ъ. Ponds Monitored

0 C/

Ponds with 3 Consecutive Years of Recent Data (2016-2021)

Water Quality Impairments

A lack of consistent and available monitoring data for all ponds means that we may be underestimating threats to waterbody health.

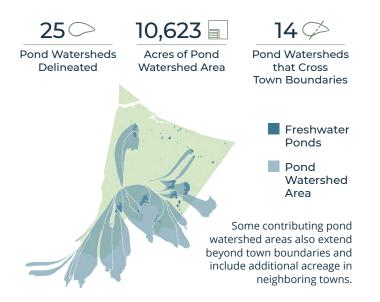

Sandwich Ponds Profile

A RESOURCE OF THE CAPE COD FRESHWATER INITIATIVE

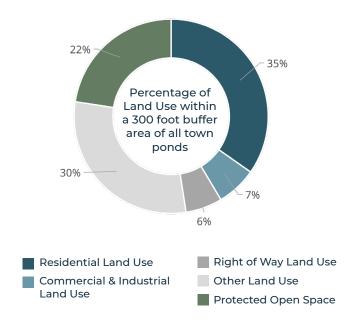

Pond Watersheds

The land area that contributes to freshwater ponds and lakes is referred to as a pond watershed. Relatively few pond watersheds have been delineated across the Cape. Land area within pond watersheds is much larger than the water bodies themselves. In Sandwich, **38%** of the town's total land area is within a delineated pond watershed.

Land Use in Pond Buffer Area

Understanding the way that land is used around our freshwater ponds contributes to a better understanding of potential pond impacts, stressors, and viable strategies to protect or restore pond health. **1,239** acres (or 4%) of the town's total land area is within 300 feet of a freshwater pond.

Documented Town Reports and Actions

Town Specific Freshwater Reports Pond Specific Freshwater Reports

Local Pond Organizations

Independent groups, organizing around a single or multiple ponds, voluntarily conduct educational and advocacy efforts and collect water quality monitoring data, which is not always available or sufficient for regional analysis.
