Re: Long Pond Woodlands Conservation Area, DRI Exemption application

Dear Commissioners:

We write this letter to urge the Commission to approve the Town of Brewster's application for a Development of Regional Impact Exemption related to the proposed acquisition by the town of 42 acres of land at W.H. Besse Cartway & Long Pond Road for the purposes of conservation, passive recreation and wellfield protection.

We are in favor of protecting open space wherever possible on Cape Cod. We are also abutters to the acreage in question. In addition, it is our understanding that protecting this parcel of land from development is of critical importance to the town's water supply, as it encompasses one or more of the town's wells.

Thank you for your consideration.

Respectfully yours,

Handwritten signature of Mayrene Earle.
