Re: Wireless Monopole/ Mashpee Fire Station #2

Dear Commissioners,

My wife Pamela and I own property in New Seabury at 18 Spoonrift Circle, Mashpee. This is our second home in New Seabury. The two locations are two miles apart and for each home, we had such bad cell service that even going out to the street we dropped calls. Many homeowners have as their sole "land line" phone service from Comcast which only functions if the internet is working. When that goes down, the only way to reach Comcast is via your cell phone and that means the only phone service is voice service from a cell tower.

Because of the above, my wife and I are wholly supportive of the proposed by Blue Sky Towers II, LLC to construct the monopole per their application. We would attend the hearing if we could but at present we are unable to do so.

Very truly yours,

Eric P. Rothenberg
