Dear Erin and Jordan:

We are working diligently to complete all of the Cape Cod Commission's (Commission) various requirements for an expedited DRI Exemption. Enclosed with this letter are the completed Commission's Application Cover Sheets for both properties, letters from the landowners and checks for the application fee.

Regarding the application fees, the enclosed checks are made out in the amount of \$2,473 each. As you mentioned, we certainly would like to apply for the 10% discount as a non-profit (we are a 501c 3 and can provide all the necessary documentation) and an additional 10% because this request is for conservation purposes.

In addition, I noted language on the Commission's website indicating that a Municipality, State or Federal application would be exempt from the entire fee. I have asked The Town of Barnstable if they may be willing to be a "co-applicant". If the Town is not an option, I can also ask the Massachusetts Department of Environmental Restoration and/or the U.S. Environmental Protection Agency as part of our Southeast New England Program grant we received in 2021.

This project has been developed using the "roadmap" of the Commission's own "208 Plan" to restore the waters of Cape Cod. We hope that will help as you consider our application.

Thank you and I look forward to hearing from you as soon as convenient. I can be reached at 617-947-9898.

Sincerely,

A handwritten signature in blue ink, appearing to read "Zenas Crocker", is written over the word "Sincerely,".
